PLEVNA AND TRADE. There is anxious discussion as to what effect the fall of Plevna will have upon trade. That depends upon whether it leads to overtures from Turkey for peace. If it should do so then commerce will be much affected, and the question is therefore one of great interest to us, far as we are from "the theater of war." Could Turkey see her position as those who look on do, it is probable she will likely she will seek a little more drubbing. the city of Justinian. THE POLITICAL SPOILED CHILD. The APPEAL has never doubted the decency and respectability of Mayor Flippin, and it regrets to see a decent reputation thrown away by a shameless desertion of the Democratic party, which has liberated the south from the rule of Radicalism. From this time until the day of the election, we intend to denounce Mayor Flippin's treachery

to the Democratic party. Neither threats nor bullying can gag the APPEAL into sience, or the support of a man who is a rigid partisan when the machinery of party is worked in his interest, but who becomes an ndependent when he fails to secure a nomination. As we have already said, Mayor lippin is a political spoiled child. Seven years ago he set up a cry for office, and he reuses to be quiet unless what he wants is given to him. Like other spoiled children, he is deaf to reason and justice, shuts his eyes to everything like principle, and rejects with fierce and angry conclusions everything not in harmony with his blind and passionate desire. He must have office, or he will refuse

Believing him to be a faithful and reliable Demotrat, we permitted him to use the APPEAL as a jumping-jack. When he jerked the tring which an office-seeker coils around the neck of a partisan editor we spun his praise in many columns, and if it had been charged that he would have been an Independent candidate on failure of receiving the nomination, great would have been the indignation. It is useless to say John R. Flippin was elected. For five years he weighed out justice from the bench, and for five years he

... Sad Fate of a Compositor and a Proof Reader-A Tale with a Moral. A Boston exchange tells us that a western editor wrote the following innocent para-graph for his paper: "From the sample trunks in the ballways of the hotels, we should judge the drummers from New York houses have arrived in town." When we returned from dinner the grin-ning office boy announced to him that four "Where are they?" asked the quill driver.
"Well," said the imp, "they've been smoking in the composing room till the com-

positors have sneezed all the type out of their sticks. 'n they've sent me out six times for beer, 'n now they're playin' draw poker with the foreman on the imposing stone."
"Very well," said the editor, bringing a large club in the corner more into view, re placing the paper cutter with a bowie-knife, and half opening a drawer in which reposed a revolver, "show 'em in' Four gentlemen in very plain suits, with very large diamond pins and very loud watch

For a boldness of opinion far less than this, only a few weeks ago, Mr. Maurice was driven from King's After his expulsion, clergymen

were careful what they said on such subjects, whatever they may have thought, and th next man to give utterance to such sentiment was the author of the celebrated politica skit, "Dame Europa's School." He public declared that neither he nor the majority the clergy really believed these doctrines, although they preached them. But he was only a young country curate, and what he said made little impression upon the public mind. The marvelous thing was that in neither of these instances were the offenders brought to book by their respective superiors. On the contrary, the former was appointed by the government chaplain to the late Arctic expedition, and the latter still holds his position as rector of Carfax church, at Oxford.
